New books and movies in the Vise Library

Whether you're going on a big vacation or just staying home this summer, you might find yourself with a little extra time to do some reading and watching movies for fun. The library has ordered plenty of new popular books and movies guaranteed to help you fill some of that spare time! Here are some of the staff picks (synopses from Amazon.com):

- *Toy Story 3*: The final movie in the Toy Story trilogy. It's not just for children!

- *Georgia Bottoms* by Mark Childress: The story of a sassy Southern belle whose world is forever changed after the events of 9/11.

- *Empire* by Orson Scott Card: A story about a red-state versus blue-state American civil war that takes place in the near-future.

- *The Girl With the Dragon Tattoo* by Steig Larsson: The first of a trilogy that follows a financial journalist and a superhacker as they try to solve a decades-old disappearance of a teen heiress.

- *Inception*: A science-fiction thriller that converges through the realm of dreams.

To find these titles and other new ones, see a librarian at the information desk!
